On February 24, 1998, the Public Utilities Commission (Commission) received an application for a construction permit from Rapid City Gas Transportation Company, LLC (Rapid City Gas) to build a 6.625 inch O.D. transmission pipeline and associated facilities. The purpose of the facility is to supply natural gas to entities including, but not limited to, the Merillat Company, Rapid City, South Dakota. Merillat Company is a manufacturer of wood cabinets at a plant in Rapid City. Merillat wants a direct connection from its pipeline transporter to its factory. The estimated construction cost of the proposed transmission pipeline and associated facilities is approximately \$1,000,000.00.

The proposed 6.625 inch O.D. transmission line will extend from a point on the existing Williston Basin Interstate Pipeline Company, located at Township 2 North, Range 8 East, Section 21, in Pennington County, South Dakota, extending in a southerly direction in the Elk Creek Road right-of-way for a distance of approximately 1.1 miles to the Interstate Highway 90 and continuing in a southerly direction in the Elk Creek Road right-of-way for 2.6 miles to State Highway 44. The pipeline will then continue in a southerly direction in the proposed new state limited access Highway for 2.6 miles to the Merillat Plant Lateral then westerly for 0.5 miles to the Merillat Plant.

At its regularly scheduled March 10, 1998, meeting, the Commission reviewed Rapid City Gas' filing.
